

100% DECENTRALIZED SMART CONTRACT

BUSINESS PROPOSAL

# CRYPTOCURRENCY IS THE FUTURE OF FINACE

- A new survey shows that a majority of Americans believe cryptocurrency is the future of finance.
- Both Democrats and Republicans believe cryptocurrency needs stronger regulation.
- With strong appeal to young people and minorities, cryptocurrency has the potential to create a fairer economy.

# WHAT IS BLOCKCHAIN TECHNOLOGY?

Blockchain is a shared, immutable ledger that facilitates the process of recording transactions and tracking assets in a business network. An asset can be tangible (a house, car, cash, land) or intangible (intellectual property, patents, copyrights, branding).

**Virtually anything of value can be tracked and traded on a blockchain network, reducing risk and cutting costs for all involved.**

**The faster it's received and the more accurate it is, the better. Blockchain is ideal for delivering that information**

**A blockchain network can track orders, payments, accounts, production and much more.**

# WHAT IS SMART CONTRACT

## Distributed

Everyone on the network is guaranteed to have a copy of all the conditions of the smart contract and they cannot be changed by one of the parties. A smart contract is replicated and distributed by all the nodes connected to the network.

## Deterministic

Smart contracts can only perform functions for which they are designed only when the required conditions are met. The final outcome will not vary, no matter who executes the smart contract.

## Transparent

Smart contracts are always stored on a public distributed ledger called blockchain due to which the code is visible to everyone, whether or not they are participants in the smart contract.

# BENEFITS OF SMART CONTRACT

Secure

Trusted

Fast  
Performance

Autonomous

Interruption  
Free

# WHY DECENTRALIZED BLOCKCHAIN IS BEST?

## WHAT IS CENTRALIZED BLOCKCHAIN?

The technology can and often is used to build private blockchains. These blockchains are controlled by a single individual or company and therefore, centralized. A popular alternative to private blockchains are public blockchains, which are decentralized and open to anyone.

## WHAT IS DECENTRALIZED BLOCKCHAIN?

In the blockchain, decentralization alludes to the transfer of supervision and decision-making from a centralized association (individual, corporation, or group of people) to a dispersed network. Decentralized networks endeavor to decrease the degree of trust that members should put in each other and dissuade their capacity to put forth authority or command over each other in a manner that corrupts the potency of the network.

# BNXG TOKEN ALLOCATION

TOKEN NAME:- **BNXG TOKEN**

SYMBOL:- **BNXG**

SUPPLY:- **210M**

NETWORK:- **BSC**

# WHY JOIN M2PLUS

**It is a comprehensive community of web stalwarts sharing knowledge and expertise on the Blockchain technology and its byproducts such as cryptocurrencies.**

**Beats Coin utilizes this platform to attract and indulge the tech geeks in learning new skills and boost their earning potential. It helps you to know the integrities of the newest internet technologies in the most profitable way from the industry Experts**

# INDEX TRADING

**What is an index in trading?**

**What Is an Index? Examples, How It's Used, and How to Invest**

**An index is an indicator or measure of something. In finance, it typically refers to a statistical measure of change in a securities market. In the case of financial markets, stock and bond market indexes consist of a hypothetical portfolio of securities representing a particular market or a segment of it.**

# ABOUT BEATS COIN

BNXG coin is based on the BUSD BEP20 SMART DECENTRALIZED SYSTEM preferred and customers can buy Beats coin in a range of fiat and Crypto currencies. Sign up today for Beats coin to our special file where you can get the full scoop on this organization and its upside as a long-term investment. We are here to assist you and provide options that assist you to construct and grow your business in smart, environmentally friendly ways. Beats Coin make investments in all investments in international stock crypto-forex, real property business, Demat, and trading account as principal contacts. The organization provides a big return to their clients.

**Wallet Security Assured Internal Security Competence Saving deposits Buy, Sell, & Exchange**
